WPD assists McPherson police in \$19,000 recovery

The McPherson Police Department has been investigating a loss of \$80,000 worth of diesel truck valves from a company in that city, and called the Wichita Police Department, Larceny Section, for assistance.

The Wichita Police Department was able to locate five, 55-gallon drums of the stolen valves (approximately 5,000 valves) at American Can, 1410 E. 21st Street North, in Wichita.

The recovery of the approximately 5,000 valves was valued at \$19,500. The remaining valves are still outstanding, and the Wichita Police Department is asking that anyone with information on the remaining six drums of stolen valves please contact the WPD Larceny Section at (316) 268-4136.
